Course Content

General English: The lessons focus on reviewing and extending the various language areas such as grammar, vocabulary, listening, reading, writing, speaking and pronunciation - building confidence and fluency through continual practice of the language.

Some attention is also paid to reading and writing skills where relevant but the emphasis is on developing listening and speaking abilities through a variety of classroom activities, such as discussions, role-plays and debates. A mix of pair and group work, in addition to whole-class activities, increases opportunities for speaking and correction.

Social English: Useful, everyday language is introduced and practised. At lower levels the focus is on everyday situations that students may come across, such as going to restaurants and bars, shopping and changing money. At higher levels, as well as learning new language, students take part in discussions and debates on relevant interesting topics.

Conversation: An opportunity to develop speaking skills in a friendly, informal atmosphere. Interesting topics are introduced, with time for correction and feedback.

General English can also be combined with other more specialised options: Business English, IELTS Preparation, TOEIC® Preparation, Academic English or One-to-One lessons.
