Aims of General English

- Increased confidence, fluency and accuracy
- Practical and relevant everyday language
- Focus on all four skills - speaking, listening, reading and writing

Content

The lessons focus on reviewing and extending the various language areas such as grammar, vocabulary, listening, reading, writing, speaking and pronunciation, building confidence and fluency through continual practice of the language. This includes a thorough, detailed review of the language structures appropriate for the level.

Some attention is also paid to reading and writing skills where relevant but the emphasis is on developing listening and speaking abilities through a variety of classroom activities, such as discussions, role-plays and debates. A mix of pair and group work in addition to whole-class activities increases opportunities for speaking and correction.

General English can also be combined with other more specialised options: Social English, Business English, Extra Conversation, IELTS Preparation, TOEIC® Preparation, Academic English or One-to-One lessons. If you are interested in any of these options, please ask us for more details.
